# **Uniform Guidance Procurement Standards – OMB Extends Procurement Grace Period for One More Year**

By Stephen Machinski, CPA, Partner and William Harms, CPA, Manager

The Office of Management and Budget (OMB) has updated guidance for the procurement grace period available to non-Federal entities under <u>Uniform Administrative Requirements</u>, <u>Cost Principles</u>, <u>and Audit Requirements</u> for Federal Awards (Uniform Guidance).

The update, as included in the <u>Federal Register</u>, allows for an additional one-year grace period for implementation of the procurement standards set forth in the Uniform Guidance (2 CFR 200.317 through 200.326). Including the grace period, the implementation date for the revised procurement standards will be effective for fiscal years beginning on or after December 26, 2017.

A non-Federal entity that chooses to take advantage of this grace period must document its choice in its internal records, noting whether it's in compliance with the previous or revised procurement standards.

The new procurement standards apply to procurement of goods and services directly charged to a Federal award. The standards don't apply to indirect costs and procurement of goods and services <u>not</u> charged to a Federal award. The standards have a strong emphasis on procurement methodology to achieve the goals of increased accountability and competition. The changes are designed to better mitigate waste, fraud and abuse.

## **General Requirements of the New Guidance**

The following are the general requirements of the new guidance:

- Non-Federal entities receiving Federal awards must have their own documented procurement procedures that conform to reflect Federal law, Uniform Guidance standards, and any State laws and regulations.
- Non-Federal entities must maintain oversight to ensure that contractors perform in accordance with the terms of their contracts or purchase orders.
- Non-Federal entities must maintain written conflict-of-interest policies if its employees engage in
  the selection, award and administration of contracts. No employee, officer or agent may
  participate in the selection, award, or administration of a contract funded by a Federal award if he
  or she has an actual or apparent conflict of interest. This also applies to organizational conflicts of
  interest if the non-Federal entity is unable or appears to be unable to be impartial in conducting a
  procurement action involving a related organization.
- Non-Federal entities should focus on greater economy and efficiency to promote cost-effective
  use of services during the procurement process, and must avoid using Federal funds for the
  acquisition of unnecessary and duplicative items.

Non-Federal entities must document and maintain records sufficient to detail the history of the
procurement steps and activities required to be completed. This includes the rationale for the type
of procurement, selection of contract type, and the basis for the contractor selection and price.

#### **Five Methods of Procurement**

The Uniform Guidance outlines five methods of procurement:

- Micro-Purchases: Purchases that individually do not exceed \$3,500. To the extent practicable, micro-purchases must be distributed equitably among qualified suppliers. No bid or quote process is required.
- Small Purchases: Used for purchases up to the Simplified Acquisition threshold, which is currently \$150,000. These include small and informal purchase methods for securing services, supplies, or other property. Price or rate quotes must be obtained from an adequate number of qualified sources.
- **Sealed Bids:** Purchases over \$150,000. Bids are publically solicited and a fixed price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming to all material terms and conditions of the invitation for bids, is the lowest in price. This method is most commonly used for procurement of construction contracts.
- **Competitive Proposals:** Purchases over \$150,000. This method requires formal solicitation from an adequate number of qualified sources, fixed-price or cost-reimbursement contracts, and is used when sealed bids are not appropriate. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.
- Noncompetitive Proposals: These proposals only apply under unique circumstances. Examples
  include when an item is available only from one source, when a public emergency does not allow
  time for a competitive proposal process, when the Federal awarding agency authorizes, or when
  the competition is deemed inadequate after proper solicitation.
